### Alumnae Testimonials:

It was never my plan to stay longer than six months, but everything happens for a reason. I cannot ever repay what Edna has given me. I hope I can give to the new Edna sister what was given to me and continue to be of service to this house with whatever is needed of me. I cannot thank you enough for saving my life and believing in me when I couldn't.

Sabrina

This house is so very special to me; I have witnessed many miracles here. It will instill in you the fundamentals of sobriety, and form you to be a woman with integrity. From my experience as an Edna House resident, my advice to you is to love all the women, act as their sister and be there for them. Take good care of this house, appreciate what you have, treat it as if it were God's home, for it is saving your life!

Meg
